Joyce Mucci Regional Field Representative Federation for American Immigration Reform

Joyce, who joined FAIR in 2007, develops member and activist support throughout the United States. Joyce uses her knowledge, experience, and passion about the issue to educate the media and public on immigration issues. FAIR is a non-profit, non-partisan organization of concerned individuals who believe that our immigration laws must be reformed to better serve the needs of current and future generations.

For more than 35 years, FAIR has been leading the call for immigration reform by offering and advocating solutions that help reduce the harmful impact of uncontrolled immigration on national security, jobs, education, health care, and our environment. **What We Believe:** America has reached a point where perpetual growth cannot realistically continue within limited space. FAIR believes that without common sense limitations on immigration and the resulting population growth, virtually every social cause is a lost cause. We understand that immigration policy involves sensitive and emotional issues, and we believe in respecting the basic human rights and the dignity of all involved. We also believe that immigration policies should not be based on favoritism toward, or discrimination against any person on the basis of race, creed, color, religion, gender or nationality
